SUMMARY

Software Engineer with hands-on experience in production admin dashboards, upload systems, desktop apps, API integrations, and embedded/IoT projects. Skilled in C/C++, Python, TypeScript, React Native, SQL, debugging, and building reliable real-world software systems.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, TypeScript, SQL

Development: React Native, JavaScript, HTML, CSS, Windows and macOS desktop apps

Tools / Backend: REST APIs, PostgreSQL, Supabase, Git, GitHub, admin dashboards, API integrations

EDUCATION

Bachelor of Engineering in Computer Science and Engineering - CGPA: 7.73/10 (77.84%)

[View Marksheet](#)

Vels Institute of Science and Technology - Chennai - Aug 2021 – May 2025

Higher Secondary Certificate (HSC) - Score: 409/600 (68.1%)

[View Marksheet](#)

St. Joseph's Matric Hr Sec School - Chennai - June 2018 – Mar 2019

EXPERIENCE

Software Engineer

Jun 2026 – Jun 2026

Build.AI / Magic Hat - Remote

- Built upload validation to stop inactive videos before processing, saving about 7,600 upload hours.
- Integrated Shiprocket API for logistics and helped send 18K+ Magic Hat devices.
- Built on-device file hashing to detect duplicate videos without firmware changes.
- Built and improved Magic Hat desktop upload apps for Windows and macOS.
- Built admin dashboard workflows for 50K+ users.

PROJECTS

Ticketchain - Web3 Ticketing System with Credit Scores

Solidity, Supabase, Render, HTML/CSS/JS

[GitHub Live Demo](#)

- Built a Web3 ticketing system with attendance-based credit scores.
- Designed Supabase tables for users, events, feedback, ratings, and credit history.

IoT-Based Flood Monitoring Prevention System

Arduino IDE, Blynk, Firebase, TensorFlow, scikit-learn

[View Project](#)

- Built a dual ultrasonic sensor system for real-time flood monitoring.
- Added water-flow sensor alerts and buzzer alarms for emergency situations.

CERTIFICATIONS

- Cloud Computing, NPTEL
- Software Testing, NPTEL
- Cyber Security, Futurecalls
- Getting Started with Artificial Intelligence by IBM
- Cloud Computing Advanced (AWS), Futurecalls
